

PLUMBING & HVAC

P.E. - Mechanical Engineer

~ Nashua Location ~

A P.E. - Mechanical Engineer is an essential role for successful projects within Denron Hall's plumbing and HVAC teams. This position has been created to meet the growing demands of our company with an objective of meeting our customer's needs and solving their challenges.

Denron Hall Plumbing & HVAC is an Equal Opportunity Employer.

Job Description/Duties:

- Responsible for developing and reviewing design documents on both plumbing and HVAC systems for commercial, institutional, and industrial applications. Project sizes range from \$100,000 to \$10,000,000.
- Develop design packages that support job specifications, applicable codes and design requirements
- Provide technical field support to our project teams during the construction process.
- Familiarity with applicable building codes and engineering standards (i.e. ASHRAE, etc)
- Provide troubleshooting and technical assessments as needed on our projects
- Serve as a technical lead for design packages
- Collaborate effectively with project team members
- Adapt to changing project demands and prioritize your own workload to meet multiple, sometimes conflicting deadlines
- Ownership of all documentation related to the technical aspects of a project
- Initiate communication and follow-up with established clients to ensure customer satisfaction
- Other related duties as needed to be successful in this role.

Skills & Competencies:

- A Professional Engineering License (PE) from the State of NH is required
- Bachelor of Science degree in Mechanical Engineering
- Proficient with AutoCAD and Revit
- Three years of relevant experience producing HVAC and Plumbing designs.
- Valid driver's license with acceptable driving record
- Proficient in Microsoft Office applications
- Exceptional interpersonal and communication skills
- Time/project management skills
- Receptive to new ideas and questions
- Efficient and organized

Supervisory Responsibility:

- None

Physical Requirements:

- Prolonged periods of sitting at a desk while working on a computer
- Able to perform construction site visits which require standing, walking, climbing

Benefits:

- Health/Dental/Vision Insurance
- Paid Vacation available after 90 days
- 8 Paid Holidays
- 401(k) plan with generous company match
- Company provided Short-term/Long-term insurance
- Potential for performance bonus
